Harbor Volunteers Plan Installation

Romance of the Hawaiian Islands will prevail at the luncheon to be held by the Volunteers of Harbor General Hospital on April 20 at the Jump'n Jack restaurant when new officers will be installed. Members and guests will wear traditional island attire and will be presented with leis upon arrival.

Mrs. Rollin Ring will be installed as president for 1961-62. Serving with her will be Mrs. Evert Allen, first vice president; Mrs. E. R. Hoppe, second vice president; Mrs. Joseph Jay, third vice president; Mrs. Charles Pfeiffer, treasurer; Mrs. Richard Barry, recording secretary; and Mrs. Warren Melching, corresponding secretary.

Mrs. Marguerite Broen McAllister, chief of Patient's Services at the hospital will

conduct the installation. After the luncheon Douglas C. Shepard, an associate of the Simmons Institute will speak. His subject will be "Courtesy is Contagious."

Adding to the theme for the afternoon, a group of authentic Hawaiian dances will be performed by Leilani York and her Polynesian group from a Lomita studio.

run out on her. What I wanted to talk to her about was getting some money to her and the baby. Yesterday, when I finally got her on the phone, she said she never wanted to see me or hear from me again. Her folks have turned her against me and I need your help. — L. M.

Dear L. M.: Well what do you know — the first thing you did when you learned your girl was in trouble was to join the Armed Forces. Then something went wrong and you didn't ship right out after all Bum luck, eh?

And now the folks have the dirty nerve to suspect that maybe you were trying to skip?

Look, Buster, if you're on the level, send the money through a lawyer. (And I hope she sends it back.) You sound real nothing to me.

ADEQUATE WIRING
with plenty of outlets!

MODERN GAS to heat water fast!

balanced power homes

give you the best of modern gas and electricity...for easiest living at lower cost!

Are you a man who shaves with an electric shaver? Followed by a showerful of pipin' hot water? Then you can appreciate what most builders agree is the latest answer to truly modern living: Gas and electricity have definite roles in the home; it's only common sense to use each on the jobs it does best. (Water heating is a good example. Gas does it faster, replaces it faster, and does it lots cheaper.) This same sound logic applies to all jobs done in today's BALANCED POWER homes.

Modern gas handles such jobs as water heating, cooking, clothes drying, home heating, and air conditioning—all the jobs it does, faster, better, cheaper. Adequate wiring and well-placed outlets are provided for modern lighting, dishwashers, TV sets... all your electrical needs.

So why settle for less than the balanced living you enjoy in BALANCED POWER homes? Look for the BALANCED POWER home sign displayed by quality builders throughout the Southland.
